Thanks,

(b) (5)

Hope you feel better very soon!

David

PS: I found a 2010 article reviewing MVK and multistage models and putting them in the context of the biology. I could not follow the math at all times, but the biology I mostly understood. I notice the author was in London, but is now in Bethesda. His name is Little.

(See attached file: Little 2010 1745-6150-5-19.pdf)
